4. The following is an examiner's statement of reasons for allowance: regarding claim 1, as convincingly argued by the Applicant on pages 10-12, none of the prior art discloses a method for inspecting a phase shift mask that is used with a photolithographic optical exposure system under a set of exposure conditions comprising concurrently producing first and second aerial images from the same light transmitted by the mask in a first and second out of focus condition wherein the images are transformed to simulate a behavior of an exposure system and photoresist. Claims 11 and 23 have similar limitations to claim 1, thus are allowable for the same reasons given for claim 1. Claims 2,4-10,12-22, and 24-34 are dependent claims and thus are allowable for the same reasons given for their parent claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably
